Mission time is 1400 hours.

PAUSE

#14: All right #07 the time is now 1400 hours. Your mission for
today is to find [REDACTED] is
supposed to be working at [REDACTED] headquarters in [REDACTED]. I
want you now to focus, focus between the hours of 6 and 7

SG1B

#14: Describe [REDACTED] surroundings.

PAUSE

+10 #07: A moment ago I was in a....some kind of a apartment, old
building, 4 or 5 floors above the ground. I wanted to close
to the floor, and I lost it, and....I was outside in an
alley way. I thought I was getting ready to take a walk of
some kind. Walk...a stroll...ha-ha-hands behind his back
walking slowly....

PAUSE

+15 #07: I don't know. None of this is worth anything.... It just...
see ah... cold, icy snowy street and bare trees...buildings...
very few automobiles on a street. Can see, maybe three.
Few people....when I was still outdoors.

SG1B

#14: Okay. I want you to focus on [REDACTED], and tell me what he's
thinking about at this time. What is his main interest?

PAUSE

#07: A little girl...opening a package. Maybe...fi-five years old.
.....One of us is ha-, one of us is having pain; I don't know
which. I'll hang in there a while longer. Back pain.

PAUSE

SG1B

#14: I want you now to ask [REDACTED] what his job is...at the [REDACTED]
What is his job?

SG1B

#07: Just a minute.

#14: Okay.

PAUSE

#07: I had something thinking about....Arab looking individual with...
Turban like thing. Some kind of grid on a piece of paper...
big piece of paper like...flow chart...grid.....
This zig-zaggy lines go two-thirds away across the grid; two
of 'em drop. One of them....continues up...blue, blue line
continues...zig-zagging on up at about a 45 degree angle....
.....

PAUSE

Chart confusing. I'm looking at a point two-thirds away
across the graph..... Seems odd; should be....seems like
starting a year or finishing a year. ...damn.....three-quarters
away across.....two things send into climb...blue one continues
up. That's all I got out of it. Did you ask me a question?

#14: Now, at this time I want you to move through time to tomorrow's
date....13 February between the hours of 6 and 7 focusing again
SG1B on [REDACTED]. Describe his activity?

+25 #07: He's at a big office standing up...near a desk.....There's a
big ...colorful pattern on the wall that reaches from almost
floor to ceiling lit from above. Think it's a map. It's..
uh...good ten feet wide...three or four or five...other people
in...the bui-the...room..... The way the other
people ah.....reacting....he must be senior person present.
It looks like.....ah.....seems like early morning.....
briefing. I'm trying to figure if...he's receiving or presenting.

PAUSE

#07: He, ah, he, ah, he.....I'm getting imagery of things I
don't recognize, understand, nor can I des-, describe.....
But, I noticed the pain is apparently gone. I'm experiencing
no discomfort. I'll dump this, but I don't understand it.

+30 (Mumble) go on....I'm under water. Several feet down looking
up at something splashing into the water above me. It's gone.

PAUSE

Seems to be...very intelligent, but very moody. Had the feeling
he likes to be alone. Not really close to anyone. Tries to
give the impression that he.....is friendly. Doesn't care
about friendship, friendship sake. I get the
distinct feeling he just, he trusts almost no one.....

#07: At least there's that feeling in this meeting.

#14: What is [REDACTED] SG1B

#07: I can't get the exact topic of meeting.....just overall mood.

SG1B

#14: Tell me about [REDACTED] biggest responsibility at this time.. his main interest or responsibility at this time.

#07: I don't know. I can only tell you what I see when I ask the question.

#14: Okay. Give me the raw imagery or data that you receive.

PAUSE

#07: I saw a lot of...stack of charts...and I saw...a hole that appeared to be going down.... Like a hole in the ground... stacks, stacks...of charts with colored lines as though (mumble) a lot of information in a very short time. Ah.... charts appear to be.... get smart quick. I don't know... some topic...have the feeling it's a broad, broad, political boundaries, important advantages, rather than directed towards specific individual...does not appear to be as simple as manipulation of a individual. I see broad, general concepts, trying to recognize area.

+40

PAUSE

#07: Gettin' all muddled now; I can't even find him in the room.

#14: That's okay. I have no further questions at this time. Is there anything else you can add before we wrap it up?

PAUSE

#07: I don't think so.

#14: Okay. At this time I want you to return to the present of 12 February. Come back to this room, present time.
